PARADIGM EQUITIES, INC.
NOTES TO FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of accounting - The accompanying financial statements have been prepared on the accrual basis of accounting.

Cash equivalents - All highly liquid investments with maturities of three months or less when purchased and money market funds are considered to be cash equivalents. Money market funds are recorded at cost.

Commissions receivable - Commissions receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a provision for bad debt expense based on its assessment of the current status of individual accounts. Currently no allowance for doubtful accounts is considered necessary. Balances that are still outstanding after management has used reasonable collection efforts are written off. Commissions receivable from insurance companies and mutual funds are normally settled within 30 days.

Fixed assets - Computer equipment and software is recorded at cost and depreciated/amortized over their estimated useful lives using straight-line and accelerated methods. The Company's policy is to capitalize assets with lives in excess of one year and cost greater than \$1,000. Costs of repairs and maintenance are charged to expense when incurred. The estimated useful lives are as follows:

Computer equipment and software	3 - 5 years
---------------------------------	-------------

Liabilities subordinated to claims of general creditors - The Company does not have any liabilities subordinated to claims of general creditors.

Revenue recognition - Commission revenue is recognized utilizing the following methods:

Trade – Mutual Fund and Variable Annuity commission revenue is recorded on a trade date basis, commission rates are scheduled in the various agreements with the insurance/investment companies and are normally settled within 30 days.

Trails – Service fees are determined based on trail-eligible assets under management/premium collected by investment companies during the calendar year. Service fees are scheduled in the agreements with the insurance/investment companies and are recognized over the period during which services are performed which are either monthly or quarterly as outlined in the agreement.

Assets Under Management – Fees are recurring in nature and earned based on a percentage of the current market value of clients' investment holdings and recognized over the period during which services are performed. Assets not held at the end of the quarter are prorated for that portion of the quarter during which the shareholder was invested in an assigned account.

PARADIGM EQUITIES, INC.
NOTES TO FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Concluded)

Estimates - The process of preparing financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and expenditures. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Advertising - Advertising costs are expensed as incurred.

NOTE 2 - NATURE OF ORGANIZATION, RISKS AND UNCERTAINTIES

Paradigm Equities, Inc. (the "Company") was organized by the issuance of 20,000 shares of stock on January 19, 1993 for \$30,000. The Company is a registered broker - dealer under the Securities Exchange Act of 1934 and is a member of the Financial Industry Regulatory Authority (FINRA).

The Company requested and has been granted permission for exemption from Securities and Exchange Commission's Rule 15(c)3-3, pursuant to Paragraph (k)(2)(i), allowing the Company to transact its investment company securities and variable annuity business through a "Special Account for the Exclusive Benefit of Customers". The balance in this account at December 31, 2016, is \$126,163 and is included in Cash and Equivalents on the Statement of Financial Condition.

The Company is required to disclose significant concentrations of credit risk regardless of the degree of such risk. Financial instruments, which potentially subject the Company to concentrations of credit risk, consist principally of cash, temporary cash investments and receivables.

The Company deposits its cash and temporary cash investments with FDIC insured financial institutions. Although such cash balances may exceed the federally insured limits, they are, in the opinion of management, subject to minimal risk.

The Company's customers are located primarily in the State of Michigan. Commission income accrued at year-end is normally settled within 30 days and is considered subject to minimal risk. The breakdown of revenue and receivables by significant sources is as follows:

	2016	
	Revenue	Receivables
Company A	62%	60%

PARADIGM EQUITIES, INC.
NOTES TO FINANCIAL STATEMENTS

NOTE 4 - INCOME TAXES (Concluded)

There are no significant temporary differences between "book" and "tax" income. The difference between federal income tax benefit and the amount computed based on statutory rates is attributed to the surtax exemption and other permanent differences.

In the preparation of tax returns, tax positions are taken based on interpretation of federal, state and local income tax laws. Management periodically reviews and evaluates the status of uncertain tax positions and makes estimates of amounts, including interest and penalties, ultimately due or owed. No amounts have been identified, or recorded, as uncertain tax positions. Federal, state and local tax returns generally remain open for examination by the various taxing authorities for a period of three to four years.

NOTE 7 - COMMITMENTS, GUARANTEES AND CONTINGENCIES

The Company provides representations and warranties to counterparties in connection with a variety of commercial transactions and indemnifies them against potential losses caused by the breach of those representations and warranties. These indemnifications generally are standard contractual terms and are entered into in the normal course of business. The maximum potential amount of future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statements for these indemnifications.
